Professional Summary

An experienced and highly motivated frontend engineer with extensive industry experience obtained from developing web applications for multiple clients.

Education

Frontend Developer Bootcamp
Frontend Simplified

Jan 2021 – April 2021

Experience

Frontend Simplified
Frontend Software Engineer Apprenticeship

June 2021 - Jan 2022

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface through the use of animations (AOS library), carousels (React-Slick), and transitions.
- Processed API requests to dynamically represent data from a cloud server and represented it through pagination (Bootstrap and Lodash library), skeleton loading states and dynamic routing
- Incorporated Git version control and GitHub to work and collaborate in a virtual and collaborative team environment.

Freelance Frontend Developer
Self Employed

March 2022 - Current

- Delivered 5 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and react best practices
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Projects

Portfolio | [Website](#) | [GitHub](#)

- Launched an online portfolio website to showcase projects and experiences, containing all relevant links and source code.

Library | [website](#) | [GitHub](#)

- Designed, developed and hosted a semantic book store using HTML, CSS and React. Incorporated skeleton loading states to improve page loading speed and enhance user experience
